3:30 PM – 6:00 PM AWST

## High School and Post School Transitions for Autistic Students in 2021

### About this Online Event

AASE WA and I CAN Network Ltd, including I CAN CEO/ AASE Patron Chris, will be partnering to discuss strategies for helping schools & Autistic families to work together to support high school & post-school student transitions into 2021.

These strategies will respond to the context of COVID-19 which has elevated anxiety levels and challenged people's preparedness and organisational skills for these somewhat unstructured, yet crucial transitions.

A recording of the event will be available to people who have registered for one month after the live presentation.
